DETAILED ACTION

1. The response of 10/06/2005 was received and considered.
2. Claims 1-2, 5, 7-11, 14-18 & 21-26 are pending.

Response to Arguments

3. Applicant's arguments with respect to claims 1-2, 5, 7-11, 14-18 & 21-23 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1, 5, 7-11, 14-18 & 21-26 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent 6,892,201 to Brown et al. (**Brown**).

Regarding claims 1, 5, 8-10, 14-17, 22-26 Brown discloses receiving a request for a document (col. 4, lines 7-14), identifying the source of a request/user (col. 8, line 65 – col. 9, line 6), determining an authorization level associated with the source of the request/user (col. 8, lines 22-41), determining an authorization level required to view the entire requested document (third level = full resolution), transmitting the requested document to the source of the request/displaying to user (col. 8, lines 22-41) and if the source of the request/user is not

authorized to view the entire request document (col. 8, lines 30-32), redacting unauthorized portions of the requested document by visually blurring the unauthorized portions (col. 7, lines 61 & Fig. 9A) and transmitting the redacted version of the requested document to the source of the request/user (Fig. 9A).

Regarding claims 2, 11 & 18, Brown discloses determining a plurality of levels (default, visited), wherein each authorization level is associated with a different portion of the requested document (Figs. 9A & 9B).

Regarding claims 7 & 21, Brown discloses identifying a user ID associated with the source of the request (col. 9, lines 2-6).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
